Portsmouth, Dec. 25, 1826.

Dear Sir,

My brother writes me, that he has engaged you to go to Berwick as an assistant in the Academy. I infer from his letter, that you will not leave Andover without hearing from me or some other one connected with the Institution. I write therefore to request that you will make all convenient despatch in going to Berwick.

If you find it more convenient to go through this town I shall be happy to have you call on me

Yours truly

J. H. Putnam
